

What should I already know?
<ul style="list-style-type: none"> <li>Plants can grow.</li> </ul>

What will I know by the end of the unit?	
<p>The names of some <b>common garden plants</b></p>	<ul style="list-style-type: none"> <li>People may grow <b>plants</b> in their <b>gardens</b> and care for them.</li> <li>They may grow <b>flowering plants</b> which are beautiful to look at or <b>beans</b> and <b>seeds</b> to grow <b>plants</b> for food.</li> <li>When <b>plants</b> are grown for food, this may be called a <b>herb garden</b> or <b>vegetable patch</b>.</li> </ul> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">         vegetable patch     </div> <div style="text-align: center;">         rose     </div> </div> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">         poppy     </div> <div style="text-align: center;">         sunflower     </div> </div>

<p>The names of some <b>common wild plants</b></p>	<ul style="list-style-type: none"> <li>A <b>wild plant</b> will grow by itself.</li> <li>It does not need to be cared for.</li> <li>If it grows somewhere unwanted, it may be a <b>weed</b>.</li> </ul> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">         dandelion     </div> <div style="text-align: center;">         daisy     </div> <div style="text-align: center;">         buttercup     </div> </div> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">         nettle     </div> <div style="text-align: center;">         clover     </div> </div>
--	---

<p><b>Deciduous and evergreen trees</b></p>	<ul style="list-style-type: none"> <li><b>Deciduous trees</b> lose their <b>leaves</b> in the autumn every year. Their <b>leaves</b> are generally broad, flat and have veins running through them.</li> <li><b>Evergreen trees</b> have green <b>leaves</b> all year round. Their <b>leaves</b> are generally thick, waxy and narrow like needles.</li> </ul> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">         deciduous     </div> <div style="text-align: center;">         evergreen     </div> </div>
---	---

<p>What are the parts of <b>common trees and plants</b>?</p>	
--	---

Vocabulary	
branches	parts that grow out from the <b>tree trunk</b> and have <b>leaves, flowers, or fruit</b> growing on them
bulb	a root shaped like an onion that grows into a <b>flower</b> or <b>plant</b>
common	something that is found in large numbers or it happens often
deciduous	a <b>tree</b> that loses its leaves in the autumn every year
evergreen	a <b>tree</b> or bush which has green <b>leaves</b> all the year round
flower	the part of a <b>plant</b> which is often brightly coloured and grows at the end of a <b>stem</b>
flowering	<b>trees</b> or <b>plants</b> which produce <b>flowers</b>
fruit	something which grows on a <b>tree</b> or bush and which contains <b>seeds</b> or a stone covered by a substance that you can eat
garden	a piece of land next to a house, with <b>flowers, vegetables, other plants,</b> and often grass
herb	a plant whose leaves are used in cooking to add flavour to food, or as a medicine
leaf / leaves	the parts of a tree or plant that are flat, thin, and usually green
petal	thin coloured or white parts which form part of the <b>flower</b>
plant	a living thing that grows in the earth and has a <b>stem, leaves, and roots</b>
roots	the parts of a <b>plant</b> that grow under the ground
seed	the small, hard part from which a new <b>plant</b> grows
stem	the thin, upright part of a <b>plant</b> on which the <b>flowers and leaves</b> grow
tree	a tall <b>plant</b> that has a hard <b>trunk, branches, and leaves</b>
trunk	the large main <b>stem</b> from which the <b>branches</b> grow
vegetable	<b>plants</b> such as cabbages, potatoes, and onions which you can cook and eat
vegetation	<b>plants, trees and flowers</b>
weed	a <b>wild plant</b> that grows in <b>garden</b> and prevents the <b>plants</b> that you want from growing properly
wild	animals or <b>plants</b> that live or grow in natural surroundings and are not looked after by people

Investigate!
<ul style="list-style-type: none"> <li><b>Plant</b> a bean or a <b>seed</b> and watch it grow. Record your observations in a diary.</li> <li>Go on a <b>wild plant hunt</b>! Create a <b>tally chart</b> to show how many of each <b>plant</b> you have found and then use the information to answer questions.</li> <li>Plant some <b>garden plants</b>, care for them and watch them grow.</li> <li>Go on a <b>tree hunt</b> around the Country Park - what types of <b>trees</b> can you see? Collect fallen <b>leaves</b> and identify which <b>tree</b> they came from using pictures to help you. Sort the <b>leaves</b> between <b>deciduous</b> and <b>evergreen</b> trees.</li> <li>Label the parts of a plant showing where the <b>leaves, flowers (blossom), petals, fruit, roots, bulb, seed, trunk, branches, and stems</b> are.</li> </ul>
