How does my body work?

Key Learning-

We will learn all about our new school and develop new friendships.

All children and people are different and our differences are what makes us special.

Our family is unique, we will talk about our family and the people who are special to us.

Our body is made of a skeleton which keeps us upright and our muscles help us move our body. Our skeleton is made up of different bones such as: a skull, spine (back bone), hip bone (pelvis) and leg bone.
